OUTDOOR LG LED SIGNAGE

Stadium Series

Outstanding Visibility

Smooth Playback in Dynamic Motion

16-bit Color Processing

Uniform Picture Quality

Front and Rear Serviceability

Reliable Weatherproof Design

Outstanding Visibility

Offering a powerful 6,000nits brightness (customizable up to 8,500nits), this super-bright display excels outdoors even in direct sunlight, instantly captivating attention and effectively delivering content.

Smooth Playback in Dynamic Motion

A high refresh rate of 4,000Hz ensures smooth playback. Flicker-free images prevent the black bars that appear in video recordings, as well as viewer eye strain and blurred vision.

Detailed Expression of Color Depth

16-bit color processing provides a higher greyscale level, which seamlessly displays different depths and densities of colors without distortion, thereby giving a more realistic and sophisticated content.

Uniform Picture Quality

Every step from production is strictly managed, while factory calibration ensures consistent quality between the LED units. The display provides seamless content with 97% brightness uniformity.

Front and Rear Serviceability

The product offers both front access and rear access*, allowing customers to choose according to their installation environment and minimizing limitations in installation and maintenance.

* The LBF1 60DA4D model is accessible from top.

Reliable Weatherproof Design

The front and back of the unit case are IP65- and IP54-certified, respectively, allowing stable operation unaffected by weather and harmful outdoor environments.

PRODUCT INFORMATION

Ribbon Board

Pixel Pitch	16.00 mm
Brightness	6,000 nit
Refresh Rate	4,000 Hz
Serviceability	Top
IP Rating (Front / Rear)	IP65 / IP54

Perimeter

Pixel Pitch	16.00 mm
Brightness	6,000 nit
Refresh Rate	4,000 Hz
Serviceability	Front and Rear
IP Rating (Front / Rear)	IP65 / IP54

DIMENSION

(unit: mm)

Ribbon Board (LBF160DA4D)

Perimeter (LBB160DA4D2)
